Abbott*

The background of the slide is a vibrant cosmic scene. It features a large, bright orange and yellow nebula or galaxy structure in the upper half, with a bright light source at its core. Below this, there are several smaller celestial bodies, including a large, dark, cratered sphere (resembling a moon or planet) and a smaller, similar sphere below it. The background is filled with stars and colorful interstellar dust in shades of blue, purple, and orange.
